

PRESIDENT OUTLINES EIGHT MAJOR GOALS IN OPENING ADDRESS TO FACULTY

Taking note of a new era in education which features restricted or lowered budgets, leveling or declining enrollments, and stable or reduced staffs, President Joseph Burke told College faculty Tuesday, "We must do no less than create a novel way of thinking and a new method of operating which permits us to do more with less, or, rather, to do better with less."

In his opening address to the faculty, President Burke predicted a future for the College at Plattsburgh characterized by the following elements: steady enrollments but a recruitment process which will become increasingly difficult as the number of potential students decline and the wages paid to non-College graduates approach the wages paid to persons with degrees; budgets which will not keep pace with inflation and which may be cut during periods of recession; public, State and University demands on the College for greater accountability in expenditure of funds and quality of programs, services and activities; continuing shifts in students' demands for new programs; a decline in external funds available for research with new emphasis placed on mission-oriented, applied, and team research projects; increased demands from society for expanded services and activities from the College; students who will become increasingly dissatisfied with traditional methods and courses and rigid calendars and schedules.

Dr. Burke described eight fundamentals which he feels must be achieved if the College is to become "a dynamic and diversified institution whose ability to respond to the changing needs of students and society is not dependent on growth."

1. A realistic admissions plan which maintains the number and the quality of students.
2. An organization designed for husbanding resources rather than managing growth.
3. A balanced mix of programs which will allow the College to meet the valid needs of students and society without destroying its multi-purpose mission.
4. A rational method of reallocating resources and positions to meet changing needs.
5. A program for faculty and staff development which assists experienced personnel in expanding and shifting their expertise to meet new personal and institutional goals.
6. A system which measures the quality and cost of programs and activities and allows programmatic decisions to be made on a cost/benefit basis.
7. An evaluation system for administrators and faculty which is based on clear expectations and high standards for performance and candid and fair evaluations.
8. A governance system which guarantees both swift decisions and wide participation in the decision-making process.

ALUMNI RELATIONS PROGRAM WINS TWO SUNY AWARDS

The State University Confederation of Alumni Associations has selected the College at Plattsburgh for two of its four 1974-75 program awards. The success of the College's program for graduate dues assessment and its undergraduate alumni association earned the Confederation's award for innovative programming. An Alumni Fund Drive which last year raised more than \$10,000 for student scholarships earned recognition in the category of alumni fund raising efforts. The awards will be presented at ceremonies during the October 24 to 26 Homecoming Weekend.

"The outstanding efforts of Don Garrant, Mal Lavery and the entire staff of the Office of College Relations have produced these excellent results," said President Burke. "I also commend the leadership of the Plattsburgh Alumni Association for its support; they have every right to be proud of this honor that has come from the SUNY Alumni Confederation."

MARJORIE MORRISON RETIRES FROM LIBRARY

Mrs. Marjorie Morrison, a member of the staff of the College Library since 1950, retired from the faculty September 1. Mrs. Morrison has served as acting director of libraries since September of 1973, and is succeeded in that position by Mrs. Anne Mitchell. Mrs. Morrison automatically becomes a member of the College's faculty emeriti under a new policy of the State University Board of Trustees.

"Marjorie Morrison has served this College faithfully and well for the past 25 years," said President Burke. "During that period she has provided untold service to Plattsburgh's students and faculty. For the past two years, in the absence of a full-time director of libraries, she has maintained smooth and efficient operation of that vital College function. I speak on behalf of faculty, students and alumni in extending her profound thanks and best wishes for a fulfilling retirement."

PRELIMINARY FIGURES SHOW SUMMER ENROLLMENT INCREASE

According to preliminary figures received from the Office of the Dean of Professional and General Studies, graduate and undergraduate courses and credit workshops offered during the 1975 summer session attracted 1,865 persons, or 56 more students than were enrolled during 1974's summer program. Included among that summer enrollment were 272 persons who attended the National Leadership Workshop — a record enrollment in the Workshop's 19-year history — and 95 persons who enrolled in the College's second annual Teacher's Institute. Non-credit summer courses and workshops attracted an estimated 1,000 persons.

SEVERAL OFFICES RELOCATED; CORIGLIANO TO COORDINATE ACADEMIC ADVISEMENT

Reorganization of the academic administration and appointment of two new vice presidents have resulted in the relocation of the offices of several College administrators. Dr. Philip Clarkson, Dean of the Faculty of Arts and Sciences, now maintains his offices in Room 101 of Hudson Hall. Dr. Nicholas Troisi, Dean of the Faculty of General and Professional Studies, has offices in Room 109 of Hawkins Hall. Dr. Harold Perkins, Dean of Graduate Studies, Research and Academic Services, now has offices in Room 301 of the Kehoe Administration Building. The office of the Vice President for Academic Affairs has been relocated from the tenth floor of the Administration Building to the third floor as Dr. Thomas Porter establishes offices in Room 316. Dr. Thomas Aceto, new Vice President for Student Affairs, remains in Room 1001 of the Kehoe Administration Building.

Following the recommendations of a campus committee which studied the College advisement system, Thomas Corigliano has accepted the additional responsibility of coordinating academic advisement. Corigliano is responsible to the Vice President for Academic Affairs and will maintain an office in Room 314 of the Kehoe Administration Building.

HEALTH SERVICES ELIMINATES NON-EMERGENCY TREATMENT OF FACULTY, STAFF

Budget and staffing restrictions have made it impossible for College Health Services to continue to respond to the health needs of faculty and staff beyond the required treatment of emergency cases. "We regret the conditions which make this decision necessary," said Vice President for Student Affairs Thomas Aceto, "and ask that faculty and staff not compromise the nursing staff or doctor by seeking non-emergency care. In the event of a medical emergency resulting from an injury to an employee on campus, the injured person shall be given emergency first aid by a qualified staff nurse if such aid is sought."

RESULTS OF MASTER PLAN SURVEY AVAILABLE FOR REVIEW

In preparation for a revision of the Master Plan, and as a means of assessing opinion on several immediate issues which faced the College, President Joseph Burke issued a comprehensive survey to the teaching and non-teaching faculty last spring. A total of 289 persons responded to the survey (213 teaching faculty and 76 non-teaching professionals). Copies of the survey results will be issued to all department chairmen and may be reviewed in departmental offices. Some of the significant results of the survey follow:

- Asked to assign priorities to a list of 14 goals for the College's academic programs during the next ten years, 63% of respondents (the highest proportion) said high priority should be given to assisting students to communicate clearly, effectively and correctly in writing and speaking. Other high priorities were assigned to assisting students in: development of the desire for life-long learning (55%), and development of the capacity for self-directed learning (53%).
- Quality of academic advisement earned "fair" to "good" ratings from 62% of respondents. (The survey also asked respondents to indicate ways in which advisement might be improved.)
- Half the sample gave medium to high priority to efforts which would more precisely define requirements for grades A-E as a means of improving the grading system. Three variables of the pass/fail system scored relatively low among options for improving the grading system.
- Efforts to promote open, candid, amiable, communication of pertinent and reliable information were assigned high priorities, as was development of a feeling of trust among faculty, students and administrators.
- Teaching effectiveness of faculty and external evaluations by outside scholars were given highest priorities among eighteen criteria for evaluating effectiveness and quality of College programs.

PRELIMINARY ENROLLMENT FIGURES LIST 6,412 STUDENTS

Preliminary enrollment figures for the fall semester show 5,327 full-time and 1,085 part-time students registered for classes. The total of 6,412 students includes 5,487 full-time and part-time undergraduates and 925 full-time and part-time graduate students. The final tally of students enrolled this semester will not be available until early October following a complete accounting of courses added and dropped by the student population.

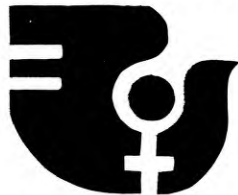

268 STUDENTS RECEIVE FOUNDATION AID

Scholarships, grants and emergency assistance totaling \$63,570 has been provided from the Plattsburgh College Foundation to 268 students during the year to date. Foundation assistance to students has increased more than 50% over assistance given through this time last year. According to College Financial Aid Director Jane Minnier, "A majority of the students who received Foundation assistance this year would probably not be on campus if that help had not been available." The Foundation, a non-profit organization of College and community persons, receives and administers gifts for Plattsburgh State. Nearly all Foundation efforts are directed to meeting students' financial need.

PRESIDENT ADVOCATES LIFE-LONG DEDICATION TO GOALS OF INTERNATIONAL WOMEN'S YEAR

College commitment to the goals of the United Nations' International Women's Year was enunciated by President Burke in the following statement issued this week:

The United Nations has designated 1975 as International Women's Year. The goals set forth in this designation are as follows:

- Promotion of equality between men and women.
- Full participation of women in economic, social and cultural developments.
- Recognition of the role of women in international cooperation and world peace.

Obviously, these goals cannot be achieved in a single year. What is needed is a life-long commitment from each of us at the College to turn these words into a reality. I ask that all of you at the College participate in the events which are scheduled for this year, but more importantly, I ask that each of you dedicate yourselves this year and in the years ahead to the promotion of equality for all persons.

CONVERSATION IN DISCIPLINES WILL INVESTIGATE IMPEDIMENTS TO CREATIVITY

"What makes people dry up?" — especially, "What causes promising faculty to fall short of their expectations and capacities?" — will be the subject for a Conversation in the Disciplines to be organized on campus this year by the Division of Education. State University's Research Foundation has granted \$2,000 in support of the project. Titled "An Inter-Disciplinary Examination of Impediments to Personal and Collective Generativity in Academia," the Conversation will provide a forum where leading scholars from the fields of group processes, organizational development and psychoanalysis may examine and discuss the problem of erosion of creativity and productivity and the atrophy of professional development in academia. A goal of the Conversation is development of methods for studying and analyzing declining creativity and productivity wherever that condition may be identified in the University.

Between 100 and 300 participants are expected to attend from State University and from local agencies where research and professional development of staff are major concerns. The dates for the Conversation have not yet been announced.

STUDENT REFERENDUM SCHEDULED OCTOBER 2

Members of the Plattsburgh Student Association will go to the polls next Thursday (October 2) to elect their non-voting representative to the College Council; to vote on six proposed amendments to their constitution; and to decide the question of SA membership in three state or national student organizations. Polls in Algonquin Dining Hall, Clinton Dining Hall and the College Center will be open from 8:00 a.m. until 7:00 p.m.

Recent State legislation requires the election of one non-voting **student member to each of the councils** of units of the State University. Non-voting student council members will have full council membership privileges with the exception of voting. To be placed on the ballot for Thursday's election, students must file petitions of candidacy at the Student Association office in the College Center before 4:30 p.m. Monday (September 29). Petition forms will be available at the SA office during regular business hours beginning at 8:00 tomorrow morning. Valid petitions require fifty signatures.

The **six constitutional amendments** which are proposed for Thursday's referendum address four issues. First is establishment of a dissolution clause which will protect the SA's tax-exempt status by stipulating that SA assets would be distributed to the Plattsburgh College Foundation in the event of SA bankruptcy. A second amendment would automatically make the President of the Student Association the student non-voting representative to the College Council (the amendment would become effective January 1, 1976). Three proposed amendments would accomplish the necessary constitutional changes to create the position of a Student Association Vice President for the Arts. A final amendment would repeal the section of the SA Constitution which prevents members of the student judiciary from becoming candidates for general election in the year following their judiciary terms.

Finally in Thursday's referendum, students will be asked, in separate questions, whether they feel the Plattsburgh Student Association should obtain membership in the Student Association of State University, the National Student Association, and the National Student Lobby.

INTERCOLLEGIATE ATHLETIC SURVEY IN MONDAY'S MAIL

An SA-sponsored questionnaire will be mailed to a random sample of 1,000 students Monday in an effort to quantify student interest in the College's intercollegiate athletic program. Five questions will ask students to rank their interests in intercollegiate sports; to indicate sporting events which they attend or in which they compete; and to define what they feel are appropriate levels of funding for intercollegiate athletics in comparison with other activities sponsored by the Student Association. This year's SA budget includes approximately \$65,000 for men's and women's intercollegiate athletics.

James Campbell, student body president, explains that this is the first survey of its type ever conducted on campus. He foresees the SA conducting similar polls on other pertinent issues.

Fourteen local agencies are supported by the Clinton County United Fund, and their purposes are outlined in campaign literature which will be distributed by the volunteer solicitors on campus. The annual United Fund Drive is the only fund drive recognized on the Plattsburgh campus. Faculty and staff may take advantage of a system of biweekly payroll deductions to achieve what they feel is a "fair share" contribution to the campaign. The campus drive will be extended to College residence halls where the goal is to achieve an average gift of one dollar per resident.

FACULTY SENATE APPROVES PROPOSAL FOR MASTERS IN HEARING AND SPEECH

Tuesday, during its first regular meeting of the current academic year, the Faculty Senate approved a proposal for initiation of a Master of Science program in hearing and speech sciences. The proposal is also subject to approval by College President Joseph Burke and by officials in the State Education Department and the State University Central Office.

Appreciation for the 26 years of service which Dr. Hans E. Hirsch gave to the College and the Faculty Senate prior to his retirement this summer was expressed in a motion passed unanimously at Tuesday's meeting. The Senate also approved a motion offered in memory of Igor Gortinsky, a member of the faculty in physics who died September 5 in San Francisco.

After considerable discussion the Senate tabled a motion which would designate the Standing Committee on Faculty Affairs as the official Senate body to be consulted by the President on questions of reallocation of faculty positions. The motion was offered from the floor by Vice President for Academic Affairs Thomas Porter.

A new policy on overdue faculty loans from the Feinberg Library was withdrawn from the Senate agenda for further consideration by the library committee.

SURVEY ILLUSTRATES INCREASING QUALITY AMONG STUDENTS

High school class standing and scores from standard qualifying examinations show a trend of increasing academic quality among members of this fall's freshman class. Survey results issued this week from the College Admission Office showed the following characteristics among this year's freshmen:

- mean high school average of 85.5 (compared to 84.8 mean average for the freshmen who entered in 1974);
- 93 per cent of entering freshmen maintained high school averages of 80 and above (compared to 68 per cent of last year's entering class);
- mean Regents Scholarship Exam score for entering freshmen was 155.86 (22.3 points higher than the average score throughout New York State, and 8.8 points higher than the average for 1974 Plattsburgh entering freshmen);
- average Scholastic Aptitude Test scores for freshmen were 502 (verbal) and 550 (math). In each case the scores are nearly 50 points higher than the average S.A.T. scores recorded by Plattsburgh's freshman class last year;
- on the average, this year's freshmen ranked in the top 24 per cent of their high school classes, compared to last year's average freshman ranking in the top 34 per cent of high school classes.

"We were simply more selective in admitting freshmen this year," explained Director of Admission David Truax. "We received more applications than we did in 1974 and we had fewer openings in the freshman class."

HOMECOMING — CENTENARIAN OLIVER WINCH NAMED 'ALUMNUS OF THE YEAR'

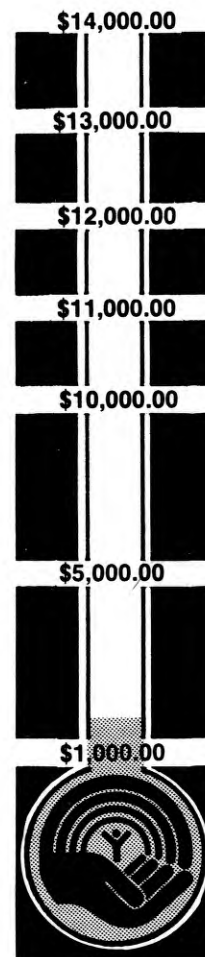

The Plattsburgh Alumni Association will honor its oldest living member — 102-year-old Oliver Winch of South Glens Falls — as Alumnus of the Year during Homecoming Weekend October 24-26. Mr. Winch was chosen for the honor by a unanimous vote of the executive committee of the Alumni Association's Board of Directors. "Selection of Mr. Winch as Alumnus-of-the-Year is especially appropriate this fall as undergraduates and alumni celebrate 200 years of our Nation's history with the Bicentennial Homecoming theme," said Alumni Affairs Director Malcolm Lavery. Then-President George W. Angell presented Mr. Winch with the College's eleventh Bachelor of Arts in General Studies on June 10, 1973, one day prior to his one-hundredth birthday. The College's General and Continuing Education Assembly awarded the degree to Mr. Winch on the basis of his education at the Plattsburgh Normal School (he was a graduate in 1893) and his life experiences.

Homecoming Weekend activities on campus will begin Wednesday evening with coronation of the king and queen scheduled during a wine and cheese party from 9:00 until 11:00 p.m. in the Ballroom of the College Center. Complete Homecoming details will be included in the next *Weekly*.

COMMITTEE ON FACULTY AFFAIRS RECOMMENDS POLICY ON REALLOCATION

After much discussion and in a close vote, the Faculty Senate Tuesday approved a policy proposal on the reallocation of faculty positions. Offered by Arnold Rheingold, chairman of the Senate's Standing Committee on Faculty Affairs, the policy includes the statement that, "While the final responsibility for these decisions [on reallocation of faculty positions] rests with the College administration, it is imperative that the faculty perspective on reallocation become an integral part of the decision-making process through interactive consultation." The policy identifies the Standing Committee on Faculty Affairs as the committee "most appropriately constituted to provide the faculty perspective on such interactive consultation," in the absence of an ad hoc committee specially designated for that purpose by the Faculty Senate.

Regarding positions which become available for reallocation at the end of occupied term contracts, the Senate policy states, "a decision to reallocate that position will include exploration of ways to provide for retainment of the incumbent through the

GIVE TO THE UNITED FUND

assignment of new responsibilities or by other mutually agreeable means, provided that the incumbent is recommended for renewal by his or her peer evaluation group."

The Senate removed from the table, amended and defeated a separate resolution which would have designated the Standing Committee on Faculty Affairs as the faculty governance body to be consulted by the President on policies concerning reallocation of faculty positions.

OLYMPIC OFFICIALS HERE FOR INSPECTION TOUR SUNDAY

Officials from the United States' Olympic Team's track and field committee will be on campus Sunday for a final inspection of Plattsburgh's track and field facilities. Pending approval from Sunday's inspection, the College could be named as the final training site for the U.S. athletes who will compete in track and field events at the 1976 Summer Olympics in Montreal. More than 90 athletes and coaches from the track and field teams will be training on campus from June 29 through July 16 if the College passes Sunday's inspection.

Already the College has been designated as the final assembly site for the entire U.S. Olympic Team. Each U.S. athlete who competes in the 1976 Olympics will be on campus for a minimum of five days making final preparations for the beginning of the Montreal Games on July 17, 1976.

OLYMPIC REPRESENTATIVES OPTIMISTIC AFTER CAMPUS TOUR

Four representatives of the United States Olympic Team's track and field committee toured campus last weekend and were optimistic about the College's chances for selection as training site for the 1976 U.S. Olympic track and field teams. The four-member delegation will report its findings to the entire track and field committee during a November 30 meeting, and a final decision on the College's bid to serve as training site is expected at that time. "The College is making or has completed all of the facility changes which the track and field committee requested during an earlier visit," explained Dr. Ernest Rangazas, "and we are eager for the November 30 decision." Plattsburgh State is already ensured of its role as final assembly site for the entire U.S. delegation to the 1976 Games in Montreal.

COLLEGE OFFICIALS DEFEND \$14,173,000 BUDGET IN ALBANY

President Joseph Burke was in Albany Monday to defend the College's requested \$14,173,000 budget for the 1976-77 fiscal year. With him were the presidents of the Student Association and Faculty Senate, the three College vice presidents and the assistant to the president for analytical studies and long range planning. The informal budget hearing is an annual process and marks the beginning of budget review by the Governor's Division of the Budget and the State Legislature. Final decisions on the budgets of all State agencies will be announced in February.

Bernard Seawell, vice president for finance and management, reports that officials of the Division of the Budget who were present Monday were openly pessimistic about New York State's fiscal situation, especially in light of the effect which budget crises in New York City are having on the State.

It was announced last week that \$99,000 (12%) will be cut from the equipment budget for the new College library as part of a move by State University Trustees to limit construction costs at University campuses across the State. The reduction is not expected to delay the scheduled opening of the Library in the fall of 1977.

COLLEGE WILL SERVE AS COUNTY'S 'ELECTION CENTRAL'

Through the efforts of instructional resources, the computing center, the office of college relations, the political science department and the League of Women Voters, Yokum Communications Lecture Hall will be converted to the County's official election headquarters next Tuesday evening. Returns from the political races for public office throughout the county will be funneled to the computer center, totaled, and projected on the screen in Room 200 of the Communications Lecture Hall, beginning at 9:00 p.m. The reports will be updated at regular intervals. County Democrats and Republicans will maintain headquarters in the Communications Lecture Hall, and the Press Republican, WEAV and WIRY radio stations, and WPTZ-TV plan to establish satellite operations in the building. Students, staff and community persons interested in following the election returns are invited to Room 200 any time after 9:00 p.m. November 4.

CAMPUS UNITED FUND DRIVE ATTAINS 59% OF GOAL

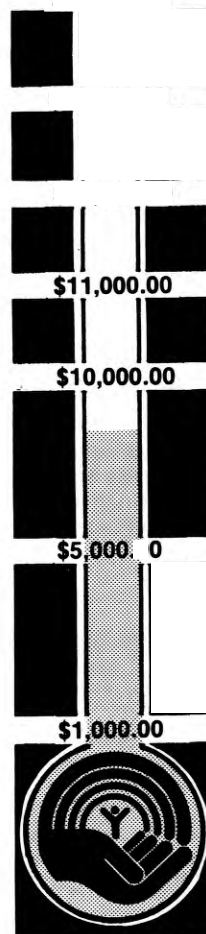

With one week remaining in its effort to collect donations for the 1976 Clinton County United Fund, the campus fund drive has attained 59 percent of its \$14,000 goal. By Wednesday, 319 College employees had contributed a total of \$8,243.90 to the United Fund. "Our current figures reflect contributions from only 30 percent of the College's employees," said fund drive coordinator Don Garratt. "We are optimistic that our goal will be achieved with support from those persons whose contributions have not yet been counted." The average gift to this year's College drive is \$26.00.

Residence hall councils are sponsoring door-to-door collections and benefit projects with a goal of contributing \$2,000 to the campus fund total. Contact Pat McCaffrey (3824) or Marcia Stock (2508) for more information about the residence hall fund drive.

CAMPUS UNITED FUND AT 80% OF GOAL

With some collections still outstanding — including the total proceeds of a fund drive among students — the campus campaign for the Clinton County United Fund has achieved nearly 80 percent of its \$14,000 goal. Slightly more than \$11,000 had been collected by Wednesday, and the hope is that final collections among faculty, staff and students will take the campus drive beyond its goal. "We ask anyone who has not yet contributed to please do so this week," said campaign coordinator Don Garratt. "Everyone's support is necessary if we are to meet out commitment to the United Fund."

BUDGET AND PROGRAM REVIEW UNDERWAY

Budget and program reviews underway on the Plattsburgh campus reflect the growing emphases on efficiency and economy which are becoming the rule in the State University of New York.

Anticipating further reduction of the College's requested 1976-77 budget when Governor Hugh Carey's Executive Budget is unveiled in February, President Joseph Burke has asked the Faculty Senate, the Executive Committee of United University Professions and the Executive Council of the Student Association to **recommend contingency plans for further reducing the 1976-77 budget by one to five percent.** To allow adequate time for campus-wide discussion of the recommended contingency plans, Dr. Burke has established a December 15 deadline for their receipt.

At the direction of the Chancellor, the College is required to conduct a complete review of its academic and non-academic programs and report its findings by March 15, 1976. Similar program reviews are mandated on all State University campuses. President Burke has asked the 17-member expanded Master Plan Committee to coordinate the review of programs on the Plattsburgh campus. As the first step in that review, department chairpersons and coordinators of interdisciplinary programs have been asked to convene their departments or members of their interdisciplinary groups to respond to a list of six questions contained in an October 15 memorandum to faculty. Similar questions concerning campus plans, goals and programs have been sent to the Faculty Senate and Student Association for their reactions. Those responses are to be submitted to the review committee by November 26. The review committee will analyze the responses and draft an overall campus review by January 21, 1976. Final comments on the draft will be due back to the committee by February 20, 1976, allowing for preparation of the report to the Chancellor by the March 15 deadline.

ADMISSIONS REPORTS 1,960 NEW STUDENTS; APPLICATION RATE UP 14%

The final admissions report for September 1975 shows 1,960 new students enrolled at the College this fall. There are 1,118 women and 842 men in this fall's entering class.

SPECTER OF N.Y.C. DEFAULT THREATENS COMPLETION OF PLATTSBURGH LIBRARY

Plattsburgh's new college library is among \$600-million worth of State University construction projects whose completion is jeopardized by threatened default in New York City. State University Chancellor Ernest Boyer and Board of Trustees Chairman Elisabeth Moore sent a telegram to President Gerald Ford last weekend spelling out consequences which would be felt by State University in the event of a New York City default. That telegram read:

We urgently request you to help save New York City from default. The City's financial collapse will have a devastating impact on the State University of New York. We have been advised that as a result of the New York City situation, the University construction bonds, which have enjoyed top credit ratings, cannot now be marketed. This will result in needed facilities remaining half built, cuts in student enrollment and massive lay-offs of construction workers throughout the State. The future of public higher education in New York is seriously threatened. Federal action to avoid default in the City is imperative to restore confidence in the market place. Your personal support is of greatest importance.

Plattsburgh is listed among 15 State University campuses where projects under construction or already completed would be affected by a New York City default. It is common for construction bonds to be sold financing construction of State University buildings after their completion. For Plattsburgh's library those bonds would be sold some time after its scheduled completion in January, 1977. If it becomes apparent that those construction bonds will not be marketable, the State may be forced to halt the \$600-million in construction now under way and stop the flow of cash from State tax coffers which is now financing the construction.

The College was notified in October that \$90,000 has already been cut from the equipment budget originally allocated for the library.

AD HOC COMMITTEE TO CIRCULATE HEALTH SERVICES QUESTIONNAIRE

State University is proposing a sharp reduction in its contribution to the cost of student health care on its campuses. As part of that proposal, student fees may be assessed in the future to finance a major portion of the cost of operating health services.

An ad hoc committee which has been reviewing health services at the College at Plattsburgh since September is drafting a questionnaire to ascertain which health services students desire and what fees they are willing to pay to receive those services.

"The amount of these proposed fees is dependent upon the services offered," explained Student Affairs Vice President Thomas Aceto, "but we anticipate they will be in the range of \$18 to \$30 per year." Additionally, the cost of individual student health insurance (currently \$92.50 per year) is directly dependent upon the range of college health services available to students.

"The committee is seeking the most economical health plan available to students in view of the proposed loss of a large share of State University financing," Aceto explained. "It appears now that the type of infirmary service which can be maintained on campus by assessing a small fee from each student is the best solution."

Input to the ad hoc committee on student health services may be directed to Dr. Leroy Piccard, assistant vice president for student affairs.

PRESIDENT REAFFIRMS DECISION ON GERMAN PROGRAM; APOLOGIZES TO DEPARTMENT

In a letter to Craig Sample, chairman of the department of foreign languages and literature, President Joseph Burke has reaffirmed the decision to eliminate baccalaureate programs in German and apologized for failing to notify the department officially of that decision. The College will drop its degree programs in German at the end of this academic year. "Although no one, least of all myself as President of the College, wishes to eliminate any academic program, the elimination of the B.A. and B.S. programs in German was, in my opinion, necessary in view of the budget cut and guidelines issued by the Chancellor," wrote Dr. Burke.

The letter added, "Despite my continued belief in the correctness of the decision, I must apologize for the failure to notify the Department of Foreign Languages and Literature. The lack of any precedent and therefore any established procedure for eliminating a program, the time constraints on the preparation of the budget, and the fact that it was merely a proposal until early September when the budget was accepted by Central Office, may help to explain my failure to notify the Department. Still, whatever the circumstances, this omission was inexcusable, and as President of the College I take full responsibility for the failure and herewith apologize to the Department of Foreign Languages and Literature."

FUND DRIVE REACHES 90% OF GOAL

The campus drive for the Clinton County United Fund has reached 90 percent of its goal with 504 College employees contributing \$12,519. Not counted in the total collected to date are student contributions totaling more than \$1,000.

"We have already collected more for the United Fund than has ever been contributed on this campus before," said Don Garrant, coordinator of the College fund drive. "We have collected \$1,500 more than was collected last year, and we have less than \$1,500 to go before reaching our goal. We are confident that we will reach our goal with the final collection effort at the College. I urge anyone who has not been contacted for a contribution to the drive to contact the office of college relations at 564-2090."

PLATTSBURGH DESIGNATED 'BICENTENNIAL CAMPUS'

Plans for commemorating the Nation's bicentennial have earned the College at Plattsburgh the designation of "Bicentennial Campus" from the American Revolution Bicentennial Commission. As a Bicentennial Campus, the College will be listed in catalogs published by the commission, and it will receive the official Bicentennial flag. In recognition of the motto of the Nation's Bicentennial program — "A past to remember; a future to mold" — a local Bicentennial committee chaired by Dr. Martin Hasting plans several local programs on the themes of "Heritage '76," "Festival U.S.A.," and "Horizons '76." Ten such programs were described in the College's application for status as a Bicentennial Campus. Persons interested in learning more about campus plans for the Bicentennial are invited to contact Dr. Hasting at 564-2045.

U.U.P. FILES GRIEVANCE OF IMPROPER LABOR PRACTICES

The Plattsburgh Chapter of United University Professions, Inc., (UUP is the bargaining agent for employees of State University) has notified College President Joseph C. Burke of UUP's decision to test what it considers to be improper labor practices on the Plattsburgh campus. UUP President Arthur Newgarden's letter to Dr. Burke enumerates 36 labor practices which UUP considers improper and will test under Article Seven ("Grievance Procedures") of the agreement between UUP and the State of New York.

Dr. Newgarden describes the UUP action as "a complicated challenge" intended to eliminate ambiguity from administrative decisions which affect the agreement between UUP and the State. Dr. Newgarden explained that the challenge deals with what UUP considers to be violations of Articles Two and Three of the Agreement (recognizing UUP as the exclusive representative for collective negotiations of salaries, wages, hours and other terms and conditions of employment).

Dr. Burke believes this grievance "raises the fundamental question of whether administrative consultation with the various faculty and student groups on campus is compatible with the existence of a faculty union. The question of whether collegiality and collective bargaining can legally coexist in a college or university has been raised on a number of campuses throughout the country," Dr. Burke added. "Fortunately, the contract between the UUP and the State University provides a grievance procedure which permits definitive answers to this crucial question."

Dr. Burke hopes for a speedy resolution of the questions raised in the grievance by mechanisms provided in the Agreement.

STATE POSITION FREEZE HITS UNIVERSITY

CAMPUS UNITED FUND NEARS \$14,000 GOAL

Campus United Fund coordinator Don Garrant expects the College to reach its \$14,000 fund drive goal by the end of November. Our solicitors will conduct a final canvassing before Thanksgiving Recess in hopes of meeting our full pledge to the vital services supported locally by the Fund."

Residents of Hood Hall have contributed the largest amount in a residence hall fund drive which collected \$1,084 for the United Fund.

Also scheduled are elections of Student Assembly Delegate and Chief and Associate Justices of the Student Court of Appeals. Polls will be open from 8:00 a.m. until 8:00 p.m. and students are assigned to polling places as follows: residents of Hood, deFredenberg, Moffitt, Wilson and Mason Halls will vote at Clinton Dining Hall; residents of Kent, Macomb, Adirondack, Banks and Whiteface Halls will vote at Algonquin Dining Hall; commuting students and residents of Harrington and Macdonough Halls will vote at the College Center.

OLYMPIC TRACK AND FIELD TEAMS WILL TRAIN HERE IN '76

Men and women from the track and field teams which will represent the United States at the 1976 Summer Olympics in Montreal will train at the College for nearly three weeks prior to the July 17 Olympic opening ceremony. Representatives of the U.S. Men's and Women's Olympic Track and Field Committees voted Monday in New Orleans to accept the College's bid to serve as the track and field training site.

"We're delighted at this news," said College President Joseph C. Burke. "Only a very few colleges and universities have had the opportunity to be host to the training camps for the premier amateur track and field teams in the United States, and we are proud that we will be counted among them. We are prepared to do everything we can to make Plattsburgh a successful training site which will help these dedicated athletes to produce their finest efforts for the U.S. Olympic Team.

"It is important to note that no additional State appropriations will be made to support this Olympic training effort," Dr. Burke added. "In arrangements similar to those we had previously made as U.S. Olympic assembly site, the U.S. Olympic Committee will pay the costs of housing and feeding the U.S. track and field delegations and will absorb any College operating expenses beyond our normal costs."

The College has already been accepted as final assembly site for the entire U.S. delegation, meaning that virtually all of the athletes, coaches and trainers who will represent this country at the Montreal Games will be outfitted in Plattsburgh and receive their final medical examinations here.

CENTRAL OFFICE CLARIFIES UNIVERSITY'S VACANCY FREEZE

In a four-page memorandum to presidents of colleges and universities in the State University system, Vice Chancellor for Faculty and Staff Relations Jerome Komisar has clarified the vacancy freeze imposed by Governor Carey, effective November 13. As stated in the Komisar memo, "Exceptions [to the freeze] may be approved by the Division of the Budget only when failure to fill the position would:

- a) directly result in reducing the level of service necessary to protect the health or safety of patients, students, or other wards of the State; of State employees; or of State's residents; or
- b) clearly result in the loss or lapse of Federal funds or a loss of other income to the State; or
- c) cause a breakdown in administration or operations which cannot be remedied by transferring other qualified staff to the function."

The State policy makes allowances for positions offered and accepted prior to the November 13 freeze, and lists certain class exemptions within the guidelines stated above.

A total of \$14,662.30 (105 per cent of the College goal) was collected during the November drive, according to campus fund drive coordinator Donald Garant.

"I want to extend my personal thanks to each of the 543 College employees who contributed a record total of \$13,575.60 to the 1976 fund drive," said Garratt. "Particular thanks go to students on campus who far exceeded their previous years' collections with a contribution of \$1,086.70 to the 1976 United Fund. Student and employee collections combined to give the College a total contribution to the United Fund which is nearly \$4,000 greater than the total collected on campus last year.

"All of our contributors can take pride in the fact that they have helped to sustain the operations of the fourteen vital community services which are supported by Clinton County United Fund donations. And our fund drive collectors deserve greatest thanks for their outstanding effort during especially difficult financial times."

College President Joseph Burke (left), United Fund Coordinator Don Garratt (third from left), and several of the outstanding United Fund solicitors were present last week when the mercury bubbled over the top of the College's United Fund thermometer.

FACULTY SENATE APPROVES THREE RESOLUTIONS, DEFEATS ONE

At its December meeting Tuesday, the Faculty Senate passed resolutions dealing with Presidential policy making, criteria for independent studies, and submission of grades for the fall semester. Defeated was a resolution recommending that faculty at the College at Plattsburgh not participate in the Chancellor's Award for Excellence in Teaching and SUNY's program for Distinguished Teaching Professorships.

The senators made extensive amendments to a resolution proposed by the Standing Committee on Faculty Affairs before passing the resolution dealing with Presidential policy and decision making. The version passed by the Senate reaffirms the Senate's obligations, as defined in the Faculty Bylaws, with regard to program changes and implementation.

The resolution on submission of final grades for the fall semester recommends that the deadline for submission of grades for all students be extended from 4:00 p.m., December 23, 1975, to 10:00 a.m. December 29.

In an effort to ensure a "reasonable level of academic competence" in students enrolled for independent study, the Senate passed a resolution recommending that students be required to have cumulative grade point averages of 2.5 or higher to enroll in independent study courses.

The Senate will meet in **special session next Tuesday** to review suggested revisions to the Faculty Bylaws before referring the revisions to a vote of the entire faculty. Anyone may attend the special session, beginning at 4:10 p.m. in the College Center Ballroom.

President Joseph C. Burke has scheduled a meeting of all College personnel for Friday (December 19) at 4:00 p.m. in Room 200 of the Yokum Communications Lecture Hall. BERNARD AMELL APPOINTED TO COLLEGE COUNCIL

New York Governor Hugh Carey yesterday announced the appointment of Bernard Amell to the Plattsburgh College Council. Mr. Amell, 52 and a resident of West Plattsburgh, will fill the remainder of the nine-year term of retired Council member John H.G. Pell of New York City. The term expires June 30, 1978.

"Bernard Amell has long been a trusted friend and spokesman for many of the citizens in the North Country," said College President Joseph Burke. "His viewpoints are often a reflection of the feelings held by the people our College serves and with whom we live, and it is for that reason, primarily, that I recommended his appointment to the Governor. With his background in public service he will be a valuable asset, and I look forward to many benefits from his counsel."

Mr. Amell was re-elected by a wide margin in the November elections to his second term as Clerk of Clinton County, a position he has held since 1973. He served two consecutive terms as Clinton County Legislator from Area Four (1968-1972), and five consecutive terms as Supervisor of the Town of Plattsburgh (1958-1968).

VICE CHANCELLOR FOR AFFIRMATIVE ACTION TO ADDRESS COMMENCEMENT

The Assistant Vice Chancellor for Affirmative Action, Dolores Barracano Schmidt, will address Friday's informal Winter Commencement exercises in the Large Auditorium of Hawkins Hall. Ms. Schmidt's address is titled "The Best of Times, the Worst of Times: Commencement 1975." The commencement begins at 2:00 p.m. with President Joseph Burke presiding and conferring degrees on degree candidates to be presented by Vice President for Academic Affairs Thomas Porter.

Nearly 300 persons will be eligible to receive degrees Friday, including 244 students who have completed requirements for baccalaureate degrees, and 52 students who have completed requirements for master's degrees. Winter commencements were initiated in 1970 to recognize students who complete degree requirements at the end of the fall semester.

Ms. Schmidt was appointed to her present State University post in March of this year. She was Equal Employment Opportunity Coordinator for Women at the State University at Albany for two years prior to joining the staff in State University's central administration. "Dolores Schmidt's appearance at Plattsburgh is especially timely during this International Women's Year," said Dr. Burke. "She is a prime mover behind the advancement of women in the University, and we are fortunate that she has accepted our invitation to speak."

FOR JANUARY ADMISSION — APPLICATIONS UP, ACCEPTANCES DOWN

Admissions Director David Truax expects the College to enroll approximately 250 new students when spring semester classes begin in January. Nearly all of the new students will be transfers or persons readmitted to the College, and many of them will enroll at the junior level. The new students will be chosen from among approximately 850 applicants (as of Monday). At this point in the 1974-75 school year, 730 persons had applied for admission during the spring semester, and approximately 440 were actually admitted and enrolled. Truax explains that the acceptance of a lesser number of students for the coming semester reflects an effort by the College to achieve a steady state student population which is more in line with budgeted enrollment figures.

COLLEGE AUXILIARY SERVICES ELECT NEW OFFICERS

Four students, Kenneth Broadhurst, Thomas Crosby, Henry Fiacco and Bonnie Williams, and Vice President for Student Affairs Thomas Aceto were elected to the 14-member Board of Directors of College Auxiliary Services (formerly the Faculty-Student Association) at the December 11 annual meeting. Elected from the Board to serve as

HAPPY HOLIDAYS

the CAS Executive Committee for the coming year were Bernard J. Seawell, President; Thomas Crosby, Vice President; Thomas Aceto, Secretary; William Woltjen, Treasurer; and Henry Fiacco and Robert Withington, Members at Large.

In his annual report CAS General Manager John Harrison reported a net operating loss, after depreciation expenses, of \$14,062.04 for the year 1975. In its accounting of revenue-producing divisions (including food service, bookstore operations and check cashing, vending machines, and investment income), the annual report showed a net loss in food service operations of slightly more than \$800. Mr. Harrison attributes the food service loss primarily to efforts by CAS to hold the line on meal ticket prices despite spiraling inflation of the cost of buying and preparing foods. Overall, income from the various revenue producing divisions of CAS decreased by more than \$135,000 last year.

FOUNDATION RECEIVES \$5,000 FROM STUDENT ASSOCIATION

Representatives of the Plattsburgh Student Association recently presented a check for \$5,000 to the Plattsburgh College Foundation. The check represents half of the SA's commitment to its scholarship and endowment program with the Foundation for the 1975-76 school year. In the accompanying photograph (left to right) College President Joseph Burke and Foundation President Fred Merrihew accept the donation from SA President James Campbell and Executive Vice President Hank Leavitt. To date, the Student Association has provided more than \$31,000 to finance Foundation scholarships for Plattsburgh students.
